Attitude of MU authors to open access publishing

OBJECTIVE OF THE QUESTIONNAIRE: open access to scientific information is currently a hot topic for the scientific community, thus the core team of Open Science MU decided to find out the current experience of authors with publishing in open access and based on the results to improve information services and open access support.

WHO IS THE QUESTIONNAIRE INTENDED FOR: Academic, research and other staff, doctoral students, or students (all who publish scientific articles). WHO DOES THIS SURVEY: MU Open Science core team (<https://openscience.muni.cz/podpora-pro-vyzkumniky>) HANDLING DATA PROVIDED: This questionnaire is anonymous and the obtained data will not be linked to a specific person. Questions that require verbal comment will be aggregated and cleared of potential connections with a particular person. The obtained data will be used for the analysis of the needs of MU in the field of open access / open science and as a basis for the strategic setting of these activities. It will take you 5 to 10 minutes to complete the questionnaire. Thank you in advance for your time. OS core team MU
